

3rd International Workshop on Rock Mechanics and Geo-Engineering in Volcanic Environments

30th September 2009

Dear colleagues,

As many of you know, the "Sociedad Española de Mecánica de Rocas" (the Spanish National Group of the ISRM) is organizing the 3rd International Workshop on Rock Mechanics and Geo-Engineering in Volcanic Environments to be held in Puerto de La Cruz, Tenerife, Canary Island, Spain, on May 31 and June 1, during the "Cities on Volcanoes 6 – Tenerife 2010" Congress.

The Organizing Committee kindly invites you to participate and submit an abstract in electronic form of no more than 150 words, before 15th October 2009, to semr@cedex.es. Authors should indicate personal and professional data and email address. The language used in the abstracts will be English.

The abstracts will be subject to review by two referees of the scientific committee. Acceptance of abstracts and corresponding reference number to be used for following communication will be notified to the corresponding authors by 15th December 2009.

The proceedings will be published by Balkema (Taylor & Francis Group), including a book and a CD-ROM containing the full papers. These documents are due on 15th February 2010. Final acceptance will be notified before 15th March 2010.

Author instructions will be found in: <http://www.balkema.nl/instructions.asp>

For further information and to fill a preliminary registration form, please consult:

<http://www.citiesonvolcanoes6.com/>

<http://www.semr.es/>

Deadlines

Abstract submission	15 th October 2009
Abstract acceptance	15 th December 2009
Paper submission	15 th February 2010
Paper acceptance	15 th March 2010

Kind regards,

Luis E. Hernández
Chairman of the 3rd International Workshop on
Rock Mechanics and Geo-Engineering in
Volcanic Environments
